

WHAT'S
UNDER
THE
HOOD

This GraVITas

As graVITas, the annual tech fest of VIT approaches once again, this time round we at CSI-VITU, have a lot planned. From never before done workshops to events that keep you on your toes till the very end of this three day tech extravaganza, we have it all covered.

Under The Hood

And now, adding to this line up, we introduce, Under The Hood, a workshop where students will be taught how to assemble their own computers. The students will get to know how to purchase necessary parts, understand how they work together and eventually learn the skills involved in building a personal computer.

Skills taught during the workshop involve:

- PC component working
- Choosing compatible parts
- Assembly of hardware
- Setting up the operating system
- Hardware Science and Hardware Hacking
- Overclocking of CPUs

Computer Society of India

VIT Vellore has over 30,000 students and over 1000 staff members. It is a hub of technical research and education. Rated as one of the top 10 engineering colleges in India, VIT University is an esteemed private engineering college in India. We are Computer Society of India, VIT Student Branch. We have some of the best designers, developers, thinkers and Computer Science enthusiasts - working together on building solutions, services and products that would make your life easier. Our sole motivation is to push the technology forward and create something beautiful, no matter how trivial solutions that fit right into your routine and make a difference.

Why Sponsor Us?

CSI is among the most prominent technical chapters in VIT University, and for an event like this we expect a huge turn out. Moreover, it's a great platform for your company, when you choose to sponsor CSI's Under The Hood.

The various benefits you can enjoy as our sponsor are:

1. You get to reap the benefits of being our title sponsor should you choose to invest on us for an amount of **Rs. 30000/-**.
2. **Personalised mails** to be sent to the participants informing them about your company.
3. **Online Publicity** through the CSI-VITU website, Blog, Facebook Page, and the internal app made for the event which the participants will be using throughout.
4. 15 minute **interaction session** between your company's representative and our participants.
5. The company representative can hand over the **prizes** at the end of the ceremony.
6. Exclusive media coverage offered by the **graVITas Media Team**.
7. Discount coupons, company cards, **vouchers**, etc. to be handed out to all the participants.
8. Great publicity and **exposure** for your company. among thousands of students and **entrepreneurs**.

Brand Recognition

With the target audience of 30,000 engineering students, it is perfect for the publicity of your company. We have a lot of ideas about how best to go about this and we'd love to talk about what specially works best for you.

Audience

This workshop will be open to students of all branches. The students will also take turns and work with the various components that go into building the computer.
